## **How to Use This Curriculum**

**Songs:** This curriculum includes 66 different songs. In the upper right corner is the piggy back tune for which they were written. They are divided into three sections – opening and lesson. The songs are provided in two different formats. One is just the songs listed on letter size paper. The other is the songs on a 4” x 6” format that can be printed, cut and laminated if desired to create a small song flipbook for the teacher. Pictures of how to create this book is on page 58.

**Visual Aids for the Teacher:** A list of visual aids used for this curriculum is listed on pages 4 and 5. Patterns and directions are included for most of those needed on pages 55-73. Also, a list of the items you will need to supplement is on pages 5 and 58.

**Manipulatives for Children:** See page 5.

**Cabinet or Storage:** A well-organized cabinet can improve the quality of teaching and create a more welcome environment for the teacher and children.

**Time Management:** This curriculum takes 35 – 45 minutes depending on how many children are in the class.

**Snacks:** A well timed snack such as an animal cracker can immediately bring a class back in control if needed. Note: Before you use any snack, please be aware of food allergies.

**Disinfecting Toys and the Teaching Surface:** There have been a lot of different concepts for cleaning toys over the years. However, with the awareness of the complications of long-term effects that chemical cleansers can cause young children, I recommend that every church strive to have a “chemical free” nursery and use only “green” disinfectants or simply soap and hot water.
